

Project Demo Planning

Date	12 June 2026
Team ID	SWTID-2026-9325
Project Name	AI Powered Debt Relief & Financial Recovery Platform
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Project Introduction	Introduce the project, objectives, problem statement, and technology stack.	2	Bejjanki Mohana China Kotaiah
2	User Authentication & Loan Management	Demonstrate user registration, login, financial profile, and loan management features.	3	Bejjanki Mohana China Kotaiah
3	AI Settlement Recommendation	Demonstrate Debt Stress Index (DSI), financial analysis, and personalized settlement recommendations.	3	Bejjanki Mohana China Kotaiah
4	AI Negotiation Letter & Repayment Simulation	Show AI-generated negotiation letters using Google Gemini API and repayment simulation.	3	Bejjanki Mohana China Kotaiah
5	Dashboard & User Interface	Demonstrate the React.js dashboard, financial metrics, negotiation history, and user experience.	2	Bejjanki Mohana China Kotaiah
6	Testing, Documentation & Conclusion	Present testing results, project documentation, future enhancements, and conclude the demonstration.	2	Bejjanki Mohana China Kotaiah

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the need for an AI-powered debt relief platform, project objectives, team members, and technologies used.
2	Solution Overview	Describe the system architecture, React.js frontend, FastAPI backend, SQLite database, SQLAlchemy ORM, and Google Gemini AI integration.
3	Live Feature Demonstration	Demonstrate user authentication, financial profile management, loan management, AI settlement recommendations, AI negotiation letter generation, repayment simulation, and dashboard features.
4	Q&A Session	Answer questions about the implementation, AI integration, technology stack, future enhancements, and project challenges.
