| <b>Date</b>          | 12 June 2026                                         |
| <b>Team ID</b>       | SWTID-2026-9325                                      |
| <b>Project Name</b>  | AI Powered Debt Relief & Financial Recovery Platform |
| <b>Maximum Marks</b> | 1 Mark                                               |

### Team Involvement in Demonstration:

This document records the active participation and roles of each team member during the project demonstration. It ensures that every member contributes meaningfully to the presentation and that responsibilities are distributed fairly and clearly.

| S.No | Team Member Name              | Role in Demo                      | Section Presented                                                             | Contribution Summary                                                                                                                | Participation (Active / Passive) |
|------|-------------------------------|-----------------------------------|-------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------|----------------------------------|
| 1    | Bejjanki Mohana China Kotaiah | Presenter                         | Project Introduction, System Architecture, Authentication Module              | Introduced the project, explained the overall architecture, authentication flow, and coordinated the team during the demonstration. | Active                           |
| 2    | Bejjanki Mohana China Kotaiah | AI Module Presenter               | AI Settlement Recommendation, Google Gemini Integration, Repayment Simulation | Demonstrated AI-powered settlement analysis, negotiation letter generation, and repayment simulation features.                      | Active                           |
| 3    | Bejjanki Mohana China Kotaiah | Frontend Presenter                | React.js User Interface & Dashboard                                           | Explained the frontend design, borrower dashboard, navigation, and user interaction with the system.                                | Active                           |
| 4    | Bejjanki Mohana China Kotaiah | Database & Backend Presenter      | Database Design, Loan Management, Financial Profile                           | Demonstrated loan management, financial profile management, and explained the SQLite database and FastAPI backend.                  | Active                           |
| 5    | Bejjanki Mohana China Kotaiah | Testing & Documentation Presenter | Testing, Documentation, Project Conclusion                                    | Presented testing results, project documentation, and summarized the overall project outcomes.                                      | Active                           |

**Team Coordination Notes:**

| Aspect                                 | Details                                                                                                        |
|----------------------------------------|----------------------------------------------------------------------------------------------------------------|
| Team Leader / Coordinator              | Bejjanki Mohana China Kotaiah                                                                                  |
| Overall Team Coordination Rating (1-5) | 5/5                                                                                                            |
| Any issues during demo                 | Minor API response delay while demonstrating AI negotiation letter generation.                                 |
| How issues were resolved               | The team re-executed the request after verifying the API connection and successfully demonstrated the feature. |
